THAT old horse-legged man who makes a begging tour every spring to obtain funds on which to visit the Hot Springs, was in town Saturday. His leg being his entire stock in trade, is carefully watched lest it should naturally heat over.

JAMES PATON, the present City Clerk, has held that office since April 9th, 1870, and is now a candidate for re-election. "Uncle" Jimmie has attended to his duties faithfully, and it is the general desire of our citizens that he be re-elected.

SMALL-POX, scarlet fever and pneumonia are scouring Newport to an alarming extent. The health officer reports since last summer, 1,500 cases of small-pox, of which were 596 deaths among them were 215 children under five years of age.

Almost a Fatal Affray.

Saturday about noon, Ed. McKimney, a large and powerful blacksmith, of this city, came near meeting his death at the hands of George Thomas, a barkeeper in the employ of J. W. Ferguson, in the "Trot Exchange". The particulars are, that McKimney went in and called for a drink of whiskey, which was given him, and in paying for it, only put down a nickel. Thomas told him that there was ten cents more due on it, which enraged McKimney, who was in an intoxicated condition, and he at once commenced to abuse Thomas in violent terms. He was then told to go on out, and finally went on the pavement, but continued his abuse, when Thomas picked up a "bung spring" (a hickory mallet with a spring handle, for springing bungs out of barrels), and struck him over the head with it with great violence three or four times—the last lick cracking the skull behind the left ear and falling him to the pavement.

McKimney arose with but little assistance and walked home alone, streaming the blood to the pavement at every step. Drs. Ray and Howard were called in, and several pieces of skull bone were raised from the brain and taken out, leaving a hole the size of a half dollar. The wound, though a dangerous one, is not necessarily a fatal one, and McKimney having a powerful physique and constitution, may survive it. He is, at present, doing well.

Judge Turney, after taking evidence and finding that the wound was a dangerous one and that it might prove fatal, placed the bail of Thomas at \$2,000, and he not giving bail, was sent to jail. Eye-witnesses to the affray, although condemning McKimney much as an overbearing and insulting man, claim that Thomas made a very unjustifiable and murderous assault, inasmuch as McKimney was on the street and Jack Neal standing in the door, and Thoms. s administering the strokes over Neal's shoulder. Neal acted cool and with good judgement, and did all he could to ward off and even prevent the blows which came so suddenly and unexpected over his shoulders.

Our Dear Sick Boys.

Three boys sick with scarlet fever at the home of the News—Walter and Swift Champ, and Bruce Miller, our nephew protegee. Walter, who was wild with delirium and dangerously ill for three days, is now quite well, and is improving. Bruce and Swift are cheerful and doing well.

The rain which fell Thursday night was probably the largest and most damaging of any that ever fell in the county. Stoner rose immediately almost to the high water mark of February. The destruction to fences all over the county was very great. J. W. Ferguson informs us that fences were washed away in his farm that had stood intact in all the floods and freshets of the last twenty-six years.

At Flemingsburg, the branch running through town knocked a prop out from under Gerhard's warehouse and precipitated fifty barrels of flour into the flood. Several families were flooded out of their houses, and other serious damages were sustained. At Poplar Plains, a small trestle work gave way with the locomotive of the C. & S. R. R. and Pat King, the fireman, was slightly bruised.

Mrs. HATTIE HILL, of this city, has just painted in oil colors, an elegant picture of Rip Van Winkle, in the position of having just risen from his twenty years' sleep in the mountains. It certainly reflects much credit on the artist, and is eminently worthy of a place beside the work of any of our American professionals. It is on exhibition in J. W. Davis & Co's window.

D. T. LeSourd, of the 5th Street Cincinnati horse sale stables, has written to Mr. H. H. Long, of this city, that the cryon painting which he executed on him of a deceased friend, is eminently satisfactory, and is far superior to copies of the same which he had executed in that city and New York. This is indeed a high compliment to our home artist.

ELLIS CRAFT, in the Lexington jail, has received a letter from his brother at Cattlettsburg, stating that they have a man of color in jail at Parkersburg, W. Va., who confessed that himself and another one committed the crime for which he is convicted, and as soon as the other one can be arrested, the true facts will be published to the world.

MARY MANN and two children attempted to escape from a toll-gate house which was being inundated Thursday night, by the rushing water of a small branch, near Owensboro, and all three were drowned. The mother and three children who remained in the house, were saved.

Every fence from San Martin's barn to Zed Layson's fence was swept away, and fences on all water courses in the precinct suffered in proportion. The back water of Hinkton came up to the top step in front of Josh Barton's yard, and was near the high water mark of February.
